Initial Sponsorship in an ACGME-accredited Clinical Training Program

Application Processing Instructions

The checklist below provides an overview of the basic requirements to apply for initial ECFMG sponsorship to participate in a clinical training program accredited by the Accreditation Council for Graduate Medical Education (ACGME) and/or leading to certification by an American Board of Medical Specialties (ABMS) member board. Note that submission of a complete on-line application requires close coordination between each applicant and the Training Program Liaison (TPL) at the teaching hospital. While ECFMG generally reserves four to six weeks from the time all required documentation is received for review and processing, it is important to note that submission of all required documentation at the same time may significantly shorten processing time. Therefore, applicants and TPLs are encouraged to upload all required documentation on the same day, when possible. Note also that EVSP will match the original Statement of Need (SoN) received from the home country government with the pending application. Applicants can verify that a SoN has been received by checking the On-line Applicant Status and Information System (OASIS) regularly.

Any application deficiencies and/or requests for additional documentation will be communicated directly by ECFMG to the TPL via e-mail. Applicants are able to view deficiency letters in OASIS. It is recommended that applicants and/or TPLs retain a copy of all uploaded materials.

Documentation Required of all Initial Applicants (ACGME-accredited programs)

- **Contract or Letter of Offer**
  
  The contract or letter of offer must specify:
  - Start and end dates of the training year,
  - Specialty and subspecialty of the training program/pathway,
  - Training level,
  - Stipend,
  - And must be signed by both the applicant and an appropriate hospital official.

- **Statement of Need (SoN)**
  
  The original, official SoN issued directly from the Ministry of Health in the country of most recent legal permanent residence must be submitted directly to ECFMG. To be accepted by ECFMG, the original SoN must be received in the original, sealed envelope of the Ministry of Health. In addition, the Ministry of Health official issuing the letter must place it in a Ministry of Health envelope and stamp the outside flap with the issuing government seal. The document should be forwarded directly to ECFMG; if the sealed envelope is opened, ECFMG will not accept the SoN. Electronic or scanned copies of the SoN will not be accepted by ECFMG.

  Any SoN that does not meet all of the following requirements will not be accepted by ECFMG. The SoN must:
  - Be issued by the federal/central office of the applicant’s country of most recent legal permanent residence; uploaded copies, scanned or electronic versions, will NOT be accepted by ECFMG
  - Be issued on official Ministry of Health letterhead and addressed to ECFMG
  - Exactly follow prescribed wording outlined in the U.S. Code of Federal Regulations (CFR) §62.27
  - Specify a need that exactly matches the name of the training specialty/subspecialty being pursued
  - Contain the official stamp or seal of the issuing government and dated signature of issuing official on the SoN
  - Be issued in English; if not issued in English, a certified word-for-word English translation is required (again, please note that the SoN and any translation must follow regulatory prescribed language)

Sealed Ministry of Health envelopes may either be mailed directly to ECFMG by the Ministry of Health OR the applicant may place the sealed envelope containing the SoN in an air courier envelope and send to:
